

ANFA'S EUROPEAN COOPERATION DEPARTMENT

For more than 30 years, ANFA has actively promoted European mobility and cooperation in Vocational and Education Training (VET) centers in the Automotive Services Sector.

“European mobility is a powerful driver of professional growth, transversal skills, and employability for both learners and trainers.”

GUILLAUME FAURIE
ANFA's Executive Officer

ANFA (National Association for Automotive Training)

is a 75-year-old sector-focused French organization, dedicated to developing employment and training in the Automotive Services Sector, encompassing all vehicle-related activities after production (cars, trucks, motorcycles, bicycles), preparing the best workers for tomorrow's needs.

ANALYZE

Trends in the automotive market, recruitment needs, and training requirements at the regional and national levels.

DESIGN

Innovative diplomas, training pathways, and educational programs followed by over 70 000 people in France.

CERTIFY

Through assessments of over 5 000 students each year.

SUPPORT

Training for teachers & trainers, educational tools and equipment provision, and European projects for our network.

DEPLOY

Tools and resources on the ground with local VET centers.

PROMOTE

Careers to attract young people to automotive training.

OUR MISSION

SUPPORTING EUROPEAN MOBILITY & COOPERATION

Since 2022, approximately **3 200** learners and staff have benefited from an ANFA-supported mobility program.

In 2025, approximately **1 000** participants took part in a mobility project in our sector.

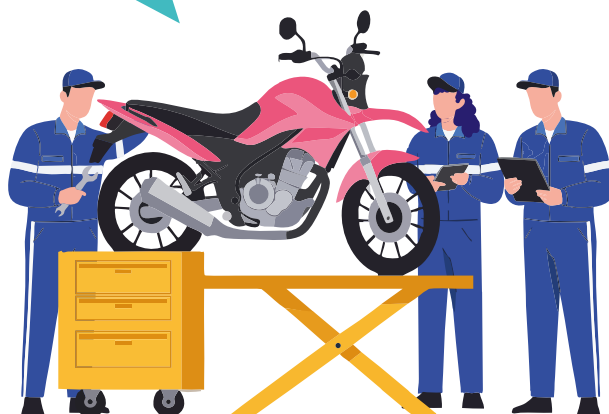

ASSISTING VET CENTERS WITH EUROPEAN PROJECTS

- **Personalized support from A to Z**, including partner search, for:
 - Individual and group mobility projects,
 - Short-term and long-term mobility,
 - On-site mobility in companies and VET centers,
 - Virtual mobility and blended mobility: with online activities before and after the on-site mobility period.
- **Practical tools** to simplify project management.
 - **Autolingo**: our free automotive language-learning app,
 - E-learning modules for European mobility training.
- **Financial support** with complementary funds for specific mobility projects.

“During my 2-week mobility in Germany in a garage, I strengthened my technical skills, improved my English in a demanding work environment, and developed greater independence and adaptability.”

Laurent, EQF4,
Light Vehicle Maintenance, Nice

02

INCREASING THE VISIBILITY AND RECOGNITION OF EUROPEAN MOBILITY

- Development of **certifying mobility**, involving the validation of a study component completed abroad.
- Organization and financing of **group study visits** for automotive students to broaden their knowledge.
- Planning incoming and outgoing **staff mobility**, study visits, and job shadowings abroad.
- Organization of **European events**.
 - **Skills competitions**: Mondial des métiers (multi-sector) & Europa Cup (motorcycle and bicycle).
 - **AutoSkills Europe**, a seminar exclusively dedicated to European mobility in the automotive services sector.

03

BUILDING STRONG PARTNERSHIPS ACROSS EUROPE

- **KA2 cooperation projects**, promoting innovation and the exchange of good educational practices alongside European partners.

Training of trainers on electric trucks maintenance

Improving digital learning in VET

- **Expanding ANFA's networks** on the national and European levels.
